

## INJURIES/ CONCUSSIONS

*If your student is injured, it is important to notify the health room so that appropriate plans and supports can be arranged.*

*Please provide the health office with any restrictions and/or documentation from your visit to the Emergency Room or Family Physician.*

*If your student is using crutches, scooter or wheelchair or requires restrictions/limitations for PE class for injury or surgery they must have permission from the health office to use the elevator and have excused participation for PE class.*

*If your student hits their head during the school day your student will be monitored in the Health Office up to 30 minutes post injury. A head injury report will be completed and the parent will be notified. Your student may need to be sent home for persistent symptoms and continued monitoring.*

*Please notify the Health Office if your student sustains a concussion outside of school. Please notify the health office and bring Emergency room discharge paperwork. Your student may need continued monitoring for return to activity and/ or dissemination of information and accommodations to your students teachers.*
